Career Objective:

To work to the best of my potential and complete my assigned tasks perfectly. Develop a good working style in order to bring great results. I would also improve my performance under the guidance and good work of my mentors and seniors.

Academic Chronicles:

Sl no	Institution Name	Board of Education	Year of Passing	Pass Percentage
1	Velammal Engineering College	Anna University Afflicted	2020	8. 92(till 4th Semester)
2	SethuBhaskara Matric Hr. Sec. School	State Board	2016	93.4%
3	Jain Vidyaashram Sr. Sec. School	CBSE	2014	98%

Area of Interests:

Programming and Data Structures, Database Management System, Full Stack Development

Awards and Honours:

Sl no	Event Name	Institution
1.	Abacus – Hackathon Finalist	Anna University, Guindy
2.	Finalist in SIH – World's Largest Hackathon	Smart India Hackathon, MHRD India
3.	Second position among 17 colleges	CTS STUDENT CLUB – FEBRUARY TASK
4.	I Prize in Paper Presentation – Staphonix	Prince Shri Venkateshwara Padmavathy Engineering College
5.	I Prize in Paper Presentation – Ulwhazhi	Prince Shri Venkateshwara Padmavathy Engineering College
6.	II Prize in Paper Presentation	Gojan School of Engineering and Management
7.	I Prize in Paper Presentation – Techastra 2k18	Dr MGR University
8.	I Prize in Mock Placement- Techastra 2k18	Dr MGR University
9.	III Prize Paper Presentation – Ethrone'18	Velammal Institute of Technology

Scanned by CamScanner

10.	I Prize in Paper Presentation – Nakshatra 2k18	SA Enggineering College
11.	II Prize in Technical Quiz – Nakshatra	SA Engineering College
12.	World record - World's Biggest International Hands-on Gaming and Security workshop	Wikitechy
13.	III Prize Paper Presentation – Meacon'18'	Velammal Engineering College
14.	Finalist – Stress Interview – Kurukshetra 2018	Anna University
15.	II Prize – Tehnical Quiz – Ubertech'17	SRM University
16.	I Prize – Techastra'17	Dr MGR University
17.	III Prize – Project Presentation	Meenakshi Sundarajan Engineering College
18.	I Prize- Techbate	Meenakshi Sundarajan Engineering College
19.	1091 Bronze and 1 Silver Medal in Skillrack Forum and completed upto 2 Programming Levels Top Performer (Velammal Educational Trust)	Skillrack
20.	Problem solving – 3 badges Python – 2 Badges Java – 1 badge	HackerRank
21.	Reached Level 7 with 2575 Points and 5 Course Completion Certificate and 9 badges	SoloLearn

Co- Curricular Activities:

- **Mini Projects**

Embedded Systems and IoT

1. **Title: Government Bus Tracking System**
   Description: Bus tracking is an application that tracks a bus and gathers the distance to each station along its route. There is no delay in the transmission because in the mesh network the data is redundantly present. Hence the latency is over ruled. The distance and the approximate time of the requested bus is the data that is sent to the user.
2. **Title: Mobile phone detecting system**
   Description: mobile phone detector is a circuit that is build using a simple electronic logic. When a mobile phone receives a message or a call it emits a frequency of 3GHz. This activates the circuit and the buzzer and the LED is turned on to intimate it to the concerned officials. This device was specially designed to find the unauthorized cell phone usage in the class rooms.
3. **Title: Power Transmission Control**
   Description: This is a power transmission line breakage detector circuit that detects the power lines failure at the exact location that may cause electrocution or electrical burn and sometimes lead to death of life. This project identifies the exact location where the power line fails and immediately cuts the power transmission neglecting the other places where there are no issues.
4. **Title: Transparency Farming**
   Description: A Sophisticated IOT device that is used to determine the amount of pesticides in the soil by using the emission of residues such as CO2 and SO2 from the soil.

Application Development (Console and Web)

5. **Title: Selective Heath data Pipette**
   Description: The Projects aims at gathering all the medical records from the Hospital Information System and display the records to the users.
6. **Title: MEDCOM**
   Description: An Automated Government Hospital Management System that is used to analyse the availability of medicines and doctors in government hospitals.
7. **Title: Computing Community**
   Description: This is an web page that provides information guidelines to the students especially Computer Science as their major subject to choose and get the guideline in a right track. This helps students in developing their skills in this field of Computer Science.
8. **Title: Public Address System**
   Description: The loudspeakers and megaphones in the public transportations stations generate a huge noise. In order to avoid that heavy noise a software system is deployed to convert the acoustic range into text format and give it to the user in live duration.
9. **Title: Student Monitor**
   Description: An interactive system where the parent and teachers from the college can passively witness student's academic and extracurricular performances and track the student's activities.
10. **Title: Flight Management System**
    Description: An application to book tickets
11. **Title: Quiz – o- Mania**
    Description: A platform to practice Quiz.

- **Conferences:**
  1. International Conference - IT'sFEW – Vellore Institute of Technology.
  Title: Coal Mine Detect and Automation using Iot and Cloud – First Author
  2. Paper Presentation – Third International Conference on Innovative and Emerging Trends in Engineering and Technology -Panimalar Institute of Technology
  Title: Power Transmission Control – First Author
  3. The seventh National Conference on National Conference on Computing Technologies Today's and Beyond(NCCTTB'1) – RMK College of Engineering and Technology
  Title: Transparency Farming – An Cloud based Analysis of Presence of pesticides in Agricultural Soil. – Main Author
- **Paper Presentations:**
  I am the Main Author of following Papers
  1. Government bus Tracking System – using Mesh Technology
  2. Power Transmission Control – using Cloud and IoT
  3. Implementation of Blue Brain Project using Titan Computers
  4. Educate the Required
  5. Public Address System

- **Industrial Visit**
  - Sansbound Solutions Private Ltd. at Chennai on 18th July 2017
  - LV Prasad TV and Film Studioat Chennai on 6th September 2018
  - IIT MADRAS on 28th February 2019
  - Cognizant Technology Solution at Chennai on 4th March 2019

Scanned by CamScanner

- **In plant training**
  - Uniq Technologies- Photoshop, Dreamweaver, SDLC
  - Code Binds Technologies- Web Development
  - Kaashiv Infotech – Big data, cloud computing, Iconic framework
- **Workshops**
  1. Android workshop – CTC Logistics
  2. MATLAB workshop- CTC Logistics
  3. Ethical hacking Workshop – Kaashiv Infotech
  4. Manual Testing, Selenium workshop- TechVibrance
- **Online Courses - NPTEL**
  1. Introduction to Modern Application Development
  2. Distributed Systems
- **Internship**

  Project Developer – Blue Arise Technologies (From May 19th 2018 till date)

Leadership Activities:

Inspired many people to practice Competitive Coding by illuminating them with the fundamentals and techniques used to solve a given problem.

Roles that I have played,

- Class Representative for the past 3 years
- Student Academic Coordinator
- CTS student club team leader
- CSI treasurer
- SIH team leader
- VEC Literary Club member

Personal Details:

Declaration:

I hereby declare that the above information given about me is true to the best of my knowledge.

Signature:

(B. PRIYADHARSHINI)
